THE POINT & GEEK ADVENTURE

“Shots, kicks, blood, money, time loops and many angry people. Randal must retrieve the ring and his life, before the universe collapses. Nobody said it was easy, but it’s worth trying.”

Randal’s Monday is a graphic adventure game, featuring a classic gameplay style and a storyline full of humor. This means that getting to watch the ending won’t be that easy. The player will have to test his skills to overcome some of the obstacles he will find, but the effort will be worth it.

Witty puzzles, a cartoonish style and several nods to the geek culture are some of the elements you will find on this game that pays tribute to that era we grew up on. For that reason we hope that everybody will enjoy this crazy Space-time odyssey.

NE X US | GAME STUDIOS

Nexus Game Studios has been founded for a very clear purpose: To make Randal’s Monday project a reality and to ensure its maximum quality.

Despite our team is rather small, it comprises genuine fans of subculture and video games.

After more than 4 years of hard work, we have been finally backed, and we are putting all our efforts into this project. We guarantee that the final product will be worth the waiting.

What we intend with Randal’s Monday, is that whenever people start a new game , they feel the spirit of the classic graphic adventure games that we used to (and still) love so much.
